OFF-PEAK WATER HEATING RIDER

This rider is closed to all new service applications.

For domestic electric water heating service (swimming pool water heating, and water heating utilized for space heating excluded). The service shall be metered on a circuit which shall include only water heating elements and exclude all other services.

Periods of electric supply service may be scheduled to conform to off-peak conditions of the Company's system. The Company reserves the right to change the off-peak period of supply to meet the changing off-peak conditions of its system. The Company, at its option, will furnish and connect to the Customer's wiring and retain ownership of a time switch or suitable device to regulate the hours of use.

Service under this rider shall be limited to water heaters of thirty (30) gallons or more capacity. All water heaters will be controlled by a thermostat and if two or more heating elements are used, the water heater will be wired so that only one element will operate at one time. The minimum wattage of all heating elements shall total not less than 3,000 watts. Service may be limited where the Customer has an abnormally large connected load, and is only available as a secondary service in conjunction with a main service.

The Low Income Rider ("LIR") is available to qualified residential customers who are identified by the Texas Department of Human Services ("TDHS") client database as eligible to receive food stamps under the Federal Food Stamp Program. On a monthly basis, the Company will compare the names in its Texas customer database with those in TDHS's client database. All matching customers will automatically be certified to receive the LIR. Once enrolled, customers will continue to receive the LIR until the date on which TDHS annually purges its client database. At that time, all customers who remain eligible to receive food stamps under the Federal Food Stamp Program will automatically be re-enrolled to receive the LIR for another year.

**QUALIFIED WATER CONSERVATION AIR COOLING RIDER**

This rider is closed to all new service applications.

Service under this Rider shall be available only to residential customers taking electric service within the City limits of El Paso. Residential customers qualify for service under this Rider by meeting either of the following requirements: 1) the customer has previously installed a refrigerative air cooling system meeting the requirements of the El Paso Water Utilities and El Paso Electric Company Joint Water Conservation Initiative Refrigerated Air Conditioning Program or, 2) the customer has installed a refrigerative air cooling system after January 1, 2001 meeting or exceeding a Department of Energy (DOE) Seasonal Energy Efficiency Rating (SEER) factor of 12.

This Rate Rider is applicable only during the Company's summer billing months of May through October.

to Company approval. Three-phase service is only available if it is existing at the location or economically feasible to bring to the location.

6. Wiring may be extended from the residence circuit to private garages, barns and similar structures and/or wells which are located on the same property as the residence and used exclusively for domestic purposes in connection with the residence.
7. Residences where rooms are rented or meals served to boarders, if these are incidental to the maintenance of a private residence, are permitted.

This rate is not available under the following conditions:

1. If a separate meter and service are provided to garages, barns and similar structures and/or wells even though their use may be in connection with the residence.
2. When it is evident, both visually and/or electrically, that activity of a business or professional character is being conducted in the residence. Service to a combination residential and commercial establishment will be supplied under the appropriate commercial service rate, but the portion used as living quarters may be wired and metered separately and served on the Residential Service Rate.
3. When service in the primary residence is resold or shared with one or more other family residences, i.e., a garage apartment or a separate living quarters connected to the main residence electric service, or a duplex with one meter. The additional residence or separate living quarters may be placed on the residential rate if local zoning ordinances permit such use and the additional residence is served and metered separately.
4. When the Customer operates devices which cause undue fluctuation of voltage. Service may be limited where the Customer has an abnormally large connected load or kW demand.
5. For a recognized or accepted boarding or rooming house.
